TECHNICAL SKILLS

LANGUAGES & CORE

TypeScript · JavaScript · Dart · Java (OOP) · SQL

WEB & MOBILE

React.js · Flutter 3 · Riverpod · Vite · Tailwind CSS

BACKEND & DATABASE

Node.js · Express 5 · MongoDB Atlas · MySQL · REST APIs

TESTING & DEVOPS

Vitest · Git & GitHub · Vercel · Render

LANGUAGES

Amharic	Native
English	Proficient
Afaan Oromo	Proficient

REFERENCES

Dr. Ejigu Tefera
Academic Department Advisor
ASTU Software Engineering

PROFILE

Senior Software Engineering student (4th Year) at Adama Science and Technology University (ASTU) with proven industrial internship experience at **AIG-Tech Enterprise (Evaluated with Grade A+)**. Specialized in production-ready full-stack web platforms, cross-platform mobile systems (Flutter), and distributed backend architectures. Experienced across **TypeScript, React, Flutter, Node.js, Express 5, MongoDB Atlas, and Socket.IO**, with strong emphasis on automated testing (Vitest), modular architecture, and responsive UX.

EDUCATION

B.Sc. in Software Engineering (Senior / 4th Year) — 2023 – Present (Exp. 2027)
Adama Science and Technology University (ASTU) · Adama, Ethiopia

Ethiopian University Entrance Certificate — 2022
National Examination Board · Ethiopia

EXPERIENCE & ENGINEERING PROJECTS

Full Stack Web Development Intern — AIG-Tech Enterprise
Aug – Sep 2026

Adama Investment Group (AIG) · Innovation & Development · Grade A+ · Enterprise

- Architected backend REST APIs, MongoDB 2dsphere geospatial indexing, OSRM road distance routing, and municipal geofencing.
- Engineered real-time Socket.IO courier tracking with throttled database persistence, and verified Chapa/Telebirr payment webhooks (HMAC-SHA256).

TemariHub — STEM Academic & Opportunity Engine
2026

React · Vite · Node.js · Express · MongoDB Atlas · Vitest · 125+ Tests

- Architected a centralized STEM opportunity platform for Ethiopian students with categorized listings, real-time deadline indexing, and search.
- Engineered automated test suites using Vitest spanning 125+ unit and integration tests with strict CI validation and sub-second execution.

Lehulu — Local Services & Artisan Marketplace
2025 – 2026

Flutter 3 · Dart · Riverpod · Node.js · Express · MongoDB Atlas · Mobile & Web

- Built a cross-platform mobile marketplace connecting households with verified local service technicians and artisans.
- Integrated geospatial service discovery, quote negotiation workflows, and reactive state management powered by Riverpod.

Revola — Next-Gen Music Streaming Experience
2025

React · TypeScript · Tailwind CSS · Web Audio API · Featured UI

- Engineered a high-performance audio streaming client with real-time waveform visualizers, dynamic playlists, and zero-latency playback.

Java Multi-Client Group Chat Application
2024

Java Core · TCP Sockets · Multithreading · Java Swing GUI · Desktop System

- Built a concurrent multithreaded TCP socket server handling multiple simultaneous client sessions with broadcast messaging.

CORE COMPETENCIES

Frontend & Mobile: React, Vite, TypeScript, Flutter 3, Dart, Riverpod, Tailwind CSS, Responsive Web Architecture

Backend & APIs: Node.js, Express 5, RESTful API Design, Socket.IO / WebSockets, OSRM Routing, Geofencing

Databases & Cloud: MongoDB Atlas, 2dsphere Geospatial Indexing, Mongoose, MySQL, Vercel, Render

Quality & Tools: Vitest, Test-Driven Development (TDD), Git, GitHub, HMAC-SHA256 Webhook Security, Agile Sprints
